

MATHEMATICAL REPORTS

VOL. 9(59)· No. 3· 2007

CONTENTS

Monica Alice APRODU	On a construction of harmonic Riemannian submersions
Petronela CATANĂ	Solvability of nonlinear equations
Roxana CIUMARA	A lower bound for a measure of performance of an empirical Bayes estimator
Valentin GRECEA	On potentials generated by increasing processes
Radu MICULESCU	A sufficient condition for a function to satisfy a weak Lipschitz condition
Udrea PĂUN	$\Delta$ -ergodic theory and simulated annealing
Sudradjat SUPIAN	On possibilistic approach for a portofolio selection problem
Emiliana URSIANU and Radu URSIANU	Multiple comparison procedure through latent roots
