

MATHEMATICAL REPORTS
VOL. 10(60)· No. 3· 2008

CONTENTS

Aurelian CERNEA	Sturm-Liouville type differential inclusions in non separable Banach spaces
B. IFTIMIE and C. VÂRSAN	Evolution systems of Cauchy-Kowalewska and parabolic type with stochastic perturbations
Diana MĂRGINEAN PETROVAI	H -cone of positive δ -finite measures
Alexandru MIHAIL and Speranța VLĂDOIU	On the factorization of fields of Banach spaces
Valeriu PREPELIȚĂ	2D acausal linear systems described by differential - difference equations
Ana Maria RĂDUCAN and Gheorghică ZBĂGANU	The CM property and comparison of risk processes
Viorel Gh. VODĂ	The equilibrium renewal process as density generator
Radu MICULESCU	Corrigenda to "A sufficient condition for a function to satisfy a weak Lipschitz condition"
