

ROMANIAN ACADEMY

MATHEMATICAL REPORTS  
VOL. 10 (60), NO. 4/2008

Anca CĂPĂȚÎNĂ, Horia ENE,  
Gelu PAȘA, Dan POLISEVSCHI  
and Ruxandra STAVRE

Optimal relations between the parameters of  
a P.E.M. fuel cell

Manuela GHICA

Efficient, weak efficient and proper efficient  
portfolios

Giorgio GIORGI

Some remarks on preinvex functions and  
other generalized convex function

Irina A. LECA

A topological degree of type (S) for  
Hammerstein operators

Diana MĂRGINEAN PETROVAI

New properties of excessive measures

Alina PARASCHIV, Liliana DOGARU  
and Eugenia PANAITESCU

On a semiparametric duality model in  
multiobjective fractional subset  
programming involving  $(\mathcal{F}, \mathbf{b}, \Phi, \mathbf{p}, \theta)$ -  
univex  $\mathbf{n}$ -set functions

Monica PATRICHE

Equilibrium in abstract economies with  
Weakly convex graph correspondences

Vasile PREDA, Miruna BELDIMAN  
and Elena Cristina BAIBARAC

Optimality conditions and higher-order  
duality for a nondifferentiable  
mathematical programming class
