MATHEMATICAL REPORTS

VOL. 15(65) • No. 3 • 2013

CONTENTS

| | |
|---------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------|
| Toni MIHALCEA | Duality for multiobjective programming involving second order generalized type I functions |
| Nicoleta ULARU and Daniel BREAZ | Univalence conditions for analytic functions |
| Marilena CRUPI and Carmela FERRÒ | Revlex ideals in the exterior algebra |
| Farshid MEHRDOUST | A randomized algorithm for estimating the condition number of matrices |
| Amjad ALIPANAH | Solution of Hallen's integral equation by using radial basis functions |
| Satyabrota KUNDU | On P-Sasakian manifolds |
| Monica PATRICHE | Existence of equilibrium for an abstract economy with private information and a countable space of actions |
| I.G. AMIRALIYEVA | Numerical method for a singularly perturbed differential system |
| Ting-Bin CAO, Kai LIU and Jun WANG | On the growth of solutions of complex differential equations with entire coefficients of finite logarithmic order |
| M. Eshaghi GORDJI, S.A.R. HOSSEINIOUN and A. Valadkhani | On (-1)-weak amenability of Banach algebras |
| Sana JAVED and Ioan TOMESCU | Chromatically equivalent k -bridge hypergraphs |
| Bogdan IFTIMIE | An optimization problem with a corporate bond |
