

REVUE ROUMAINE DE MATHÉMATIQUE PURES ET APPLIQUÉES  
(ROMANIAN JOURNAL OF PURE AND APPLIED MATHEMATICS)

TOME LII, No. 6, 2007

SOMMAIRE

- |   |   |
|---|---|
| Giovanni BASSANELLI and<br>Marco LEONI  | Some examples of 1-convex non-embeddable<br>threefolds  |
| Anton BĂTĂTORESCU, Vasile<br>PREDA and Miruna BELDIMAN<br>Mioara BUICULESCU           | Higher-order symmetric multiobjective duality<br>involving generalized $(F, \rho, \gamma, b)$ -convexity<br>Feller processes with fast explosion        |
| Petre Sorin ILIAȘ   | Existence and multiplicity of solutions of a<br>$p(x)$ -Laplacian equation in a bounded domain  |
| Janina Mihaela MIHAILĂ,<br>Octav OLTEANU and<br>Constantin UDRIȘTE<br>Ștefan MITITELU | Markov-type moment problems for arbitrary<br>compact and some noncompact Borel<br>subsets of $\mathbb{R}^n$<br>Invex sets and nonsmooth invex functions |
| Vasile PREDA and<br>Roxana CIUMARA  | Convergence rates in empirical Bayes problems<br>with a weighted squared-error loss. Pareto<br>distribution case  |
| <b>Amendments and Corrections</b>   |   |
| Anatoly GOLDBERG  | Corrigenda to "Geometric characterization<br>of locally univalent analytic functions, and a<br>generalization"  |
| Radu ZAHAROPOL  | Erratum to "Equicontinuity and existence<br>of attractive probability measures for some<br>iterated function systems"                                   |
