

ACADÉMIE ROUMAINE

REVUE ROUMAINE DE MATHÉMATIQUES PURES ET APPLIQUÉES
(ROMANIAN JOURNAL OF PURE AND APPLIED MATHEMATICS)

TOME LIV N^{OS} 2 2009

SOMMAIRE

- | | |
|-------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|
| Sergio ALBEVERIO,
Oleksandr BARANOVSKYI,
Mykola PRATSIOVYTYI and
Grygoriy TORBIN | The set of incomplete sums of the first Ostrogradsky series and anomalously fractal probability distributions on it |
| E. BALLICO | The Grassmann regularity of curves in Grassmannians |
| Corneliu
CONSTANTINESCU | On semi-discrete, semi-continuous real W^* -algebras |
| Mihai CRISTEA | Mean value, univalence, and implicit function theorems |
| Mario LEFEBVRE and
Jean-Luc GUILBAULT | On a process derived from a filtered Poisson process |
| Vasile I. URSU | On the lattice of quasivarieties of commutative Moufang loops with nilpotency class ≤ 2 . II |
| Steven VERPOORT | On the inner curvature of the second fundamental form of a surface in the hyperbolic space |
