

A. Books

- 1) V. Drăgan, A. Halanay, *Perturbații Singulare. Dezvoltări Asimptotice* - Editura Academiei RSR, București, 1983.
- 2) V. Drăgan, A. Halanay, *Stabilizarea Sistemelor Liniare* - Editura ALL, București 1994.
- 3) V. Drăgan, A. Halanay, *Stabilization of linear systems* - Birkhauser, Boston, 1999.
- 4) V. Drăgan, T. Morozan and A.M. Stoica, *Mathematical Methods in Robust Control of Linear Stochastic Systems* - Series: Mathematical Concepts and Methods in Science and Engineering, Series Editor: Angelo Miele, Volume 50, Springer, New York, 2006 and second edition in 2013.
- 5) V. Drăgan, T. Morozan and A.M. Stoica, *Mathematical Methods in Robust Control of Discrete-time Linear Stochastic Systems* - Springer New York, Dordrecht, Heidelberg, London, 2010.

B. Scientific works published in international journals

- 1) V. Drăgan, A. Halanay - Suboptimal stabilization of linear systems with several time scales, *Int. J. Control*, 36, 1, 109-126, (1982).
- 2) V. Drăgan - Observers with several time scales for systems with several time scales, *Int. J. Control*, 42, 1, 149-153, (1985).
- 3) V. Drăgan, A. Halanay - High-gain feedback stabilization of linear systems, *Int. J. Control*, 45, 2, 549-577, (1987).
- 4) V. Drăgan, A. Halanay - Behavior of high-gain feedback control under white-noise perturbations, *Int. J. Control*, 45, 4, 1427-1429, (1987).
- 5) V. Drăgan, A. Halanay, T. Morozan - Performance estimates in tracking under white-noise perturbations, *Int. J. Control*, 50, 6, 2269-2283, (1989).
- 6) V. Drăgan, A. Halanay - Zerourile invariante ale sistemelor cu miscarilente si miscari rapide si stabilizarea adaptiva, (in limba rusa) *Avtomatika i Telemehanica*, 81-91, (1990).

7) V. Drăgan, A. Halanay - Evaluari uniforme la discretizarea unei comenzi, cu aplicare la stabilizarea adaptiva- (in limba rusa) *Sibirski Mat. J.*, 31, 6, nov.-dec., 199-205, (1990).

8) V. Drăgan - Global Solutions for matrix Riccati Differential Equations via Input-output Operators, *WSSIAA 1*, 135-148, (1992).

9) V. Drăgan - Optimal stabilizing compensator for linear systems under white-noise perturbations, *Stochastic Analysis and Appl.*, 10, 5, 545-557, (1992).

10) V. Drăgan, A. Halanay, T. Morozan - Optimal stabilizing compensator for linear systems with state-dependent noise, *Stochastic Analysis and Appl.*, 10, 5, 557-573, (1992).

11) V. Drăgan - Asymptotic expansions for game-theoretic Riccati equations and stabilization with disturbance attenuation for singularly perturbed systems, *Systems and Control Letters*, 20, 455-463, (1993).

12) V. Drăgan - A "small-gain" theorem for time-varying systems, *Appl. Math. Lett.*, 6, 5, 75-77, (1993).

13) V. Drăgan, A. Halanay, V. Ionescu - Infinite horizon disturbance attenuation for discrete time systems. A Popov-Yakubovich approach, *Integr. Equat. Oper. Th.*, 19, 153-215, (1994).

14) V. Drăgan, A. Halanay, A. Stoica - Remarks on order reduction for a robustly sub-optimal controller via singular perturbations, *Systems and Control Letters*, 24, 317-320, (1995).

15) V. Drăgan, B. Iacob, T. Pritchard - Infinite dimensional time-varying systems with nonlinear output feedback, *Integr. Equat. Oper. Th.*, 22, 440-462, (1995).

16) V. Drăgan, A. Halanay, T. Morozan - Mixed input-output optimization with state feedback under white noise perturbations, *Dynamics of Continuous, Discrete and Impulsive Systems*, 2, 2, 219-237, (1996).

17) V. Drăgan - H_∞ norms and disturbance attenuation for systems with fast transients, *IEEE Trans. Auto. Control*, 41, 5, 747-751, (1996).

18) V. Drăgan - Well conditioned computation for H_∞ controller near the optimum, *Numerical Algorithms*, 15, 193-206, (1997).

19) V. Drăgan - Robust stabilization of time varying infinite dimensional systems,

IMA J. Control and Information, 14, 137-151, (1997).

20) V. Drăgan, T. Morozan - Mixed input-output optimization for time varying Itô systems with state dependent noise, *Dynamics of Continuous, Discrete and Impulsive Systems*, 3, 317-333, (1997).

21) V. Drăgan, T. Morozan - Global solutions to a game theoretic Riccati equation of stochastic control, *Journal of Diff. Equations*, 138, 2, 328-350, (1997).

22) V. Drăgan, A. Halanay, A. Stoica - A small gain theorem for linear stochastic systems, *Systems and Control Letters*, 30, 243- 251, (1997).

23) V. Drăgan, A. Halanay, A. Stoica - An alternative computational solution for optimal two block Nehari and H_∞ problems, *IMA J. Control*, 15, 285-301, (1998).

24) V. Drăgan, V. Ionescu - A robust controller for time-dependent discrete systems, *IMA Journal of Math. Contr. and Inform.*, 15, 1-23, (1998).

25) V. Drăgan - The asymptotic behavior of the stability radius for a singularly perturbed linear system, *Int. J. Robust Nonlinear Control*, 8, 817-829, (1998).

26) V. Drăgan, Peng Shi - Asymptotic H_∞ control for singularly perturbed systems with parametric uncertainties, *IEEE Trans. Aut. Control*, 44, 9, 1738-1742, (1999).

27) V. Drăgan, A. Stoica, A. Halanay - The γ -attenuation problem for systems with state dependent noise, *Stochastic Analysis and Applications*, 17, 3, 395-404, (1999).

28) V. Drăgan, Peng Shi- El-Kebir Boukas - Control of singularly perturbed systems with Markovian jump parameters: an H_∞ approach, *Automatica*, 35, 1369-1378, (1999).

29) V. Drăgan, A. Ionita - Exponential Stability for Singularly Perturbed Systems with State Delays, *Electronical Journal on Qualitative Theory of Differential Equations*, 6, 1-8, (2000).

30) V. Drăgan, T. Morozan - Exponential Stability for a Class of Singularly Perturbed Ito Differential Equations, *Electronical Journal on Qualitative Theory of Differential Equations*, 7, 1-13, (2000).

31) V. Drăgan, T. Morozan - Game theoretic coupled Riccati equations associated to controlled linear differential systems with jump Markov perturbations, *Stochastic Analysis and Appl.*, 19 (5), 715-751, (2001).

32) V. Drăgan, T. Morozan - Stability and robust stabilization to linear stochastic

systems described by differential equations with Markovian jumping and multiplicative white noise, *Stochastic Analysis and Appl.*, 20 (1), 33-92, (2002).

33) V. Drăgan, A. Stoica - Robust stabilization of two-time scale systems with respect to the normalized coprime factorization, *Int. J. Control*, 75, 1, 1-10, (2002).

34) V. Drăgan, T. Morozan, P. Shi - Asymptotic properties of input-output operators norm associated with singularly perturbed systems with multiplicative white noise, *SIAM J. Control Optim.*, 41, 1, 141-163, (2002).

35) V. Drăgan, T. Morozan - Exponential stability for a class of linear time varying singularly perturbed stochastic systems, *Dynamics of Continuous, Discrete and Impulsive Systems, Series B : Applications and Algorithms*, 9, 213-231, (2002).

36) V. Drăgan, T. Morozan - Systems of matrix rational differential equations arising in connection with linear stochastic systems with Markovian jumping, *Journal of differential equations*, 194, 1, 1-38, (2003).

37) V. Drăgan, G. Freiling, A. Hochhaus, T. Morozan - A class of nonlinear differential equations on the space of symmetric matrices, *Electron. J. Diff. Equ.*, (2004), 96, 1-48, (2004).

38) V. Drăgan, T. Morozan, A. Stoica - H_2 optimal control for linear stochastic systems, *Automatica*, 40, 7, 1103- 1113, (2004).

39) V. Drăgan, T. Morozan - The Linear Quadratic Optimization Problems for a Class of Linear Stochastic Systems With Multiplicative White Noise and Markovian Jumping, *IEEE Trans. Aut. Control*, 49, 5, 665-675, (2004).

40) V. Drăgan, T. Morozan - Stochastic observability and applications, *IMA Journal of Mathematical Control and Information*, 21, 323-344, (2004).

41) V. Drăgan - The linear quadratic optimization problem for a class of singularly perturbed stochastic systems, *Int. J. of Innovative Computing, Information and Control*, 1, 1, 53-64, (2005).

42) V. Drăgan, T. Morozan - Stochastic H_2 Optimal Control for a Class of Linear Systems with Periodic Coefficients, *European Journal of Control*, 6, 11, 619-631, (2005).

43) V. Drăgan, T. Damm, G. Freiling and T. Morozan - Differential equations with positive evolutions and some applications, *Result. Math.*, 48, 206-236, (2005).

44) V. Drăgan, T. Morozan - Exponential stability for discrete time linear equations

defined by positive operators, *Integr. Equations and Op. Theory*, 54, 465–493, (2006).

45) V. Drăgan and T. Morozan - Observability and detectability of a class of discrete-time stochastic linear systems, *IMA Journal of Mathematical Control and Information*, 23, 371-394, (2006).

46) V. Drăgan and T. Morozan - Mean Square Exponential Stability for some Stochastic Linear Discrete Time Systems, *European Journal of Control*, 12, 4, 373–396, (2006).

47) V. Drăgan and T. Morozan - Exponential stability in mean square for a general class of discrete-time linear stochastic systems, *Stochastic Analysis and Applications*, 26, 3, 495-525, (2008).

48) V. Drăgan and T. Morozan - The linear quadratic optimization problem for a class of discrete time stochastic linear systems, *International Journal of Innovative Computing, Information and Control*, 4, 9, 2127–2137, (2008).

85) V. Drăgan, S. Aberkane, I.L. Popa - Optimal filtering for a class of linear Itô stochastic systems: The dichotomic case, *Automatica*, 90(1), 47–53, (2018).

86) V. Drăgan, S. Aberkane - An addendum to the problem of numerical computation of the stabilizing solution of periodic game theoretic Riccati differential equation of stochastic control, *IMA Journal of Mathematical Control and Information*, (2018), doi:10.1093/imamci/dnx059

87) H. Mukaidani, H. Xu, V. Drăgan - Static Output-Feedback Incentive Stackelberg Game for Discrete-Time Markov Jump Linear Stochastic Systems with External Disturbance, *IEEE Control Systems Letters*, (2018), 2(4), DOI:10.1109/LCSYS.2018.2847034.

A. List of works published as chapters included in volumes

- 1) V. Dragan - Asyptotic expansions for singularly perturbed differential matrix Riccati equations with applications to linear quadric optimization problem, *F. Verhulst, (ed) Asymptotic Analysis II, Lecture Notes in Math. 895*, Springer Verlag, 370-379, (1983).
- 2) V. Dragan, A. Halanay - Uniform asymptotic expansions for the fundamental matrix singularly perturbed linear systems and applications, *F. Verhulst (ed.) Asymptotic Analysis II, Lecture Notes in Math.*, Springer-Verlag, 215-347, (1983).
- 3) V. Dragan, A. Halanay - Asymptotic expansions for coupled difference and differential-difference equations with small delays, *Anniversary volume dedicated to I.A.Mitropolskii*, (1988).
- 4) V.Dragan - Suboptimal two-block Nehari problems for time varying infinite dimensional systems, (Editor C. Corduneanu), *Qualitative problems for differential equations and control theory*, World scientific, Singapore, New Jersey, London, Hong Kong, 157–168, (1995).
- 5) V. Dragan, A. Stoica, T. Morozan - Iterative procedure for stabilizing solutions of differential Riccati type equations arising in stochastic control, (V. Barbu et all. Ed), *Analysis and optimization of differential systems*, Kluwer Academic Publishers, Boston, Dordrecht, London, 133–144, (2003).
- 6) V. Dragan - Robust stabilization for a class of singularly perturbed stochastic linear systems, (Edited by J. Misra), *Industrial Mathematics and Statistics*, Narosa Publishing House, 389–418, (2003).
- 7) V. Dragan, T. Morozan, A. Stoica - The disturbance attenuation problem for a general class of linear stochastic systems, (Edited by M. Voicu), *Advances in Automatic Control*, X. Kluwer Academic Publishers, 39–54, (2004).
- 8) V. Dragan, P. Shi - The algebraic Riccati equations arising in connection with LQ problems for singularly perturbed linear stochastic systems, Chapter 24 in *Advances in Dynamics and Control: Theory Methods and Applications*, S. Sivasundaram, J. Vasundhara Devi, F. Udwadia, and I. Lasiecka, eds., Cambridge Scientific, UK, 287-303, (2009).
- 9) H. Mukaidani, V. Dragan - Numerical Computation for solving cross-coupled large-scale singularly perturbed stochastic algebraic Riccati equation- *Handbook of Optimization Theory*, Nova Science Publishers Inc., Chapter 16, 407–424, (2011).

10) H. Mukaidani, H. Xu, V. Dragan - Dynamic Games for Markov Jump Stochastic Delay Systems, Chapter 11 in *Recent Results on Time-delay Systems*, Springer International Publishing Switzerland, Editors: Emmanuel Witrant, Emilia Fridman, Olivier Sename, Luc Dugard, (2016), *Advances in Delays and Dynamics*, Volume 5, 207–227, (2016).

11) V. Dragan, T. Morozan - On the bounded and stabilizing solution of the generalized Riccati differential equations with periodic coefficients arising in connection with a zero sum linear quadratic stochastic differential game, *New Trends in Differential Equations, Control Theory and Optimization*, editori: V. Barbu, C.G. Lefter, I.I. Vrabie, editura: World Scientific, 81–93, (2016).

12) V. Dragan, A. M. Stoica, T. Morozan - A Criterion for Robust Stability with Respect to Parametric Uncertainties Modeled by Multiplicative White Noise with Unknown Intensity, with Applications to Stability of Neural Networks, *System Modeling and Optimization*, editors: Lorena Bociu, Jean-Antoine Desideri, Abderrahmane Habbal, editura: Springer Nature, 252–262, (2017).

B. Scientific works published in the Romanian journals

1) V. Drăgan, A. Halanay - Suboptimal linear controller by singularly perturbations techniques, *Rev. Roum. Sci. Techn. Electrotechn. et Energ.*, 21, 4, 585-591, (1976).

2) S. Bolintineanu, V. Drăgan - Open-loop iterative solution of the linear quadratic optimization problem, *Rev. Roum. Sci. Techn. Electrotechn. et Energ.*, 22, 4, 535-540, (1977).

3) V. Drăgan, A. Halanay - Optimal stabilization of systems with small time constants, *Rev. Roum. Sci. Techn. Electrotechn. et Energ.*, 22, 1, 99-104, (1977).

4) V. Drăgan - Hybrid control of nonstationary systems, *Rev. Roum. Sci. Techn. Electrotechn. et Energ.*, 24, 2, 297-301, (1979).

5) V. Drăgan, A. Halanay - A singularly perturbed matrix Riccati equation, *Rev. Roum. Math. Pure et Appl.*, XXV, 10, 1477-1484, (1980).

6) V. Drăgan - Hybrid control of singularly perturbed stationary systems, *Rev. Roum. Sci. Techn. Electrotechn. et Energ.*, 25, 4, 617-624, (1980).

7) V. Drăgan - Hybrid control for systems with small time constants, *Rev. Sci. Techn.*

Electrotechn. et Energ., 25, 2, 289-303, (1980).

8) V. Drăgan, A. Halanay - A new case in the hybrid control of nonstationary systems with fast transients, *Rev. Roum. Sci. Techn. Electrotechn. et Energ.*, 26, 3, 447-453, (1981).

9) V. Drăgan - Suboptimal results in the hybrid control of singularly perturbed stationary systems, *Rev. Roum. Sci. Techn. Electrotechn. et Energ.*, 26, 4, 587-593, (1981).

10) V. Drăgan, A. Halanay - Cheap control and singularly perturbed matrix Riccati differential equations, *Rev. Roum. Math. Pures et Appl.*, XXVI, 1, 21-40, (1981).

11) V. Drăgan, A. Halanay - Stability problems for synchronous machines by singular perturbation method, *Rev. Roum. Sci. Techn. Electrotechn. et Energ.*, 27, 2, 199-209, (1982).

12) V. Drăgan - Exponential stability for a class of singularly perturbed systems, *Rev. Roum. Math. Pures et Appl.*, XXIX, 10, 851-854, (1984).

13) V. Drăgan, A. Halanay, M. Popescu - An intermediary domain between fast and slow motions in hydraulic surge systems, *Rev. Roum. Sci. Techn. Mecanique Applique*, 39, 1, (1985).

14) V. Drăgan, A. Halanay - Asymptotic expansions for coupled systems of difference-differential and difference equations. A critical case., *Rev. Roum. Math. Pures et Appl.*, 2, 131-136, (1987).

15) V. Drăgan - Cheap control with several scales, *Rev. Roum. Math. Pures et Appl.*, XXXIII, 8, 663-677, (1988).

16) V. Drăgan - Model reduction for exponential stability of systems of nonlinear differential equations coupled with nonlinear difference equations with small time size, *Rev. Roum. Sci. Techn. Electrotechn. et Energ.*, 33, 1, 85-90, (1988).

17) V. Drăgan - Discrete implementation of stabilizing linear controls, *Rev. Roum. Sci. Techn. -Electrotechn. et Energ.*, 35, 3, 389-396, (1990).

18) V. Drăgan - Discrete implementation of a stabilizing compensator, *Rev. Roum. Sci. Techn. - Electrotechn. et Energ.*, 35, 4, 533-538, (1990).

19) V. Drăgan - Discrete implementation of a stabilizing linear control for a system with two time scales, *Rev. Roum. Sci. Techn. -Electrotechn. et Energ.*, 36, 1, 121-129, (1991).
