

Potential Analysis Afternoon
January 26, 2023, Bucharest, Romania
Program

IMAR, “Ciprian Foiaş” Hall, 8th floor

14:00 - 14:10 **Opening**

14:10 - 14:30 **Valentin Grecea** (Bucharest): *On a result concerning the balayage*

14:35 - 14:55 **Mounir Bezzarga** (Tunis): *Multiplicity of solutions for a non-local problem with indefinite weights*

15:00 - 15:20 **Oana Lupaşcu-Stamate** (Bucharest): *Asymptotic behaviour of a one-dimensional avalanche model through a particular stochastic process*

Coffee break

15:50 - 16:10 **Iulian Cîmpean** (Bucharest): *On the singular value decomposition for the Poisson kernel*

16:15 - 16:35 **Lucian Beznea** (Bucharest): *A counter example on the Feller semigroups and Markov processes*

16:40 - 17:00 **Ionel Popescu** (Bucharest): *About the Gaussian moment conjecture*
