A BIBLIOGRAPHY ON OPERATOR ALGEBRAS
AND RELATED TOPICS

Supplement no. 1

Compiled by GR.ARSENE ^{x)} and S.STRATILA ^{xx)}

April 1976

^{x)} National Institute for Scientifical and Technical
Creation, Calea Victoriei 114, Bucharest 22

^{xx)} Thoretical Physics Laboratory, Institute of Atomic
Physics, P.C. Box 5206, Bucharest

This bibliographical list is supplementary to the bibliography which appeared in the book : S.STRATILA, L. ZSIDÓ, Lectures on operator algebras (romanian), Editura Academiei, Bucureşti, 1975.

It was compiled for our personal convenience and it is limited by our knowledge, information and preferences. We distribute it with the hope that it will be useful to someone.

In completing this list we used Math. Reviews, Zentralblatt für Math., Referativ.Jurnal, Operator Algebras Newsletter (last issue : May 1975), Current Mathematical Publications, the preprint lists of ICTP Trieste and of CERN ; we also benefited of many private communications and preprints of the mathematicians working in the field, to whom we express our gratitude.

x

x

The numbers in this list continue those in Strătilă and Zsidó' bibliography.

There are also two appendices : the first with items added during the last time and the second with some corrections in Strătilă and Zsidó' bibliography.

Grigore Arsene
Şerban Strătilă

AARNES, J.F.

8. Problems (on operator algebras), Proc. Fnal Analysis Week, Aarhus Univ., 1969, 64-65

ABBATI, M.C.; CIRELLI, R.; GALLONE, F.

1. Hilbert Bundles, preprint IFUM 166 IFT, July 1974

1. Type I points in a compact convex set, J. London Math. Soc., 10 (1975), 306-308

SUND, T.

3. Duality theory for locally compact groups with precompact conjugacy classes, I, II, Trans. A.M.S., 211 (1975), 185-202; preprint, Oslo, no.6 (1975)
4. Discrete series for locally compact groups, preprint, Oslo, no.9 (1975)

APPENDIX II

Modifications in the bibliographical list of STRATILA, S.,
 ZSIDO, L. : Lectures on von Neuman algebras (romanian),
 Ed. Academiei RSR, Bucharest, 1975

ABDALLA, J. ; SZUCS, J.

1. On an ergodic type theorem for von Neumann algebras, Acta Sci. Math., 36 (1974), 167-172

AKEMANN, C.A. ; DOODS, P.G. ; GAMLEN, J.L.B.

1. Weak compactness in the dual space of a C^* - algebra, J.Fnl. Analysis, 10 (1972), 446-450

ARVE SON, W.B.

11. A note on essentially normal operator, Proc. Roy. Irish. Acad., 74 (1974), 143-146
 15. Interpolation problems in nest algebras, J. Fnl. Analysis, 20 (1975), 208-233

COLOJOARA, I. ; FOIAS, C.

1. Theory of generalized spectral operators, Gordon and Breach, 1968

CONNES, A.

7. Caractérisation des algèbres de von Neumann comme espaces vectoriels ordonnés, Ann. Inst. Fourier, 24 (1974), 121-156
 11. On the hierarchy of Krieger, Illinois J. Math., 19 (1975), 428-432

EMCH, G.G.

4. Non-abelian special K-flows, J. Fnl. Analysis, 19 (1975), 1-12

HAAGERUP, U.

1. Normal weights on W^* - algebra, J.Fnl. Analysis, 19 (1975), 302-318
 2. The standard form of von Neumann algebras, Kobenhavns Univ. preprint 15/1973 ; Math. Scand., 37 (1975), 271-283

HALPERN, H.

18. Quasi-equivalence classes of normal representations for a separable C^* - algebra, Trans. A.M.S., 203 (1975), 129-140

HERMANN, R.H.

7. Unbounded derivations, I, II, J. Fnl. Analysis, 20 (1975), 234-239

KAPLANSKI, I.

27. Lie algebras and locally compact groups, The University of Chicago Press, 1971

KAROUBI, M.

1. Matrices de Jacobi, périodicité de Bott et C^* - algèbres, C.R.Acad. Sc. Paris, 268 (1969), 1091-1094

MAITLAND - WRIGHT, J.D.

3. Every monotone σ - complete C^* - algebra is the quotient of its Baire σ - envelope by a two sided σ - ideal, J. London Math. Soc., 6 (1973), 210-214

MALVIYA, B.D. ; TOMIUK, B.J.

1. Multiplier operators on B^* - algebras, Proc. AMS, 31 (1972), 505-510

OLESEN, D.

2. Inner \times -automorphisms of simple C^* - algebras, Comm. Math. Phys., 44 (1975), 175-190
3. On norm continuity and compactness of spectrum, Math. Scand., 35 (1974), 223-236

ONO, T.

4. Trace on finite AW^* - algebras, ?
5. Hypernormalcy in finite AW^* - algebras, ?
6. A real analogue of the Gelfand - Neumark theorem, Proc. AMS, (1970), 159-160

PARTHASARATHY, K.R. ; SCHMIDT, K.

2. Infinite divisible projective representations, cocycles and Levy - Khinchin - Araki formula on locally compact groups, Lecture Notes, Manchester, 1970

PEDERSEN, G.K.

15. A non - commutative version of Suslin's theorem, Bull. London Math. Soc.,
16. The trace in semi - finite von Neumann algebras, Math. Scand., 37 (1975), 142-144

POWERS, R.T.

6. Simplicity of the C^* - algebra associated with the free group on two generators, Duke Math. J., 42 (1975), 151-156

POWERS, R.T. ; SAKAI, S.

2. Unbounded derivations in operator algebras, J. Fun. Analysis, 19 (1975), 81-95

PUKANSZKY, L.

14. Characters of connected Lie groups, Acta Math., 133 (1974), 81-137 ; Bull. AMS., 80 (1974), 709-712
15. The primitive ideal space of a solvable Lie groups, Invent. Math., 22 (1973), 75-118

SAKAI, S.

36. On commutative normal x - derivations, I, II, III, Comm. Math. Phys., 43 (1975), 39-40 ; J. Fnal. Analysis,

STRATILA, S. ; VOICULESCU, D.V.

1. Sur les représentation factorielle infinies de $U(\infty)$, C.R. Acad. Sc. Paris, 280 (1975), 555-558
2. Representations of AF - algebras of the group $U(\infty)$, Lect. Notes ir. Math., no. 486 (1975)

TAKAI, H.

3. On a duality for crossed products of C^* - algebra, J. Fnal. Analysis, 19 (1975), 25-39

VAINERMAN, L.I. ; KAT, G.I.

1. Noncommutative grupal rings and Hopf - von Neumann algebras (russian), Dokl. Akad. Nauk SSSR, 211 : 5 (1973), 1031-1034 ; Matem. Sb., 94 : 2 (1974), 194-225

WESTERSTRØM, J. ; WILS, W.I.H.

1. On point realization of L^∞ - endomorphisms, Math. Scand., 25 (1969), 178-180

ZSIDO, L.

6. A proof of Tomita's fundamental theorem in the theory of standard von Neumann algebras, Rev. Roum. Math. Pures Appl., 20 (1975), 609-619
